

Math Resources:

- <http://interactivesites.weebly.com>
This site provides a number of games that drill mathematical skills including addition, multiplication, division, decimals, angles, area/perimeter, algebra and others
- <https://www.khanacademy.org/math/early-math>
This site is an excellent resource for teachers and older elementary students. It consists of a series of instructional videos followed by questions related to each topic.
- <http://www.mathplayground.com/index.html>
This site has numerous games to reinforce math skills including addition and subtraction, multiplication and division, fractions, decimals, percents, ratios, time, money, shapes, pre-algebra and geometry and graphs. The site also sorts activities by Common Core at each grade level. Math videos are available to explain how to do each math process.
